

Construction Options

Construction Options and Modifications

- --- Available with an upcharge
- ☆ --- Available with exceptions
- ◆ --- Included as standard
- (Blank) - Not available

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet.

Material dimensions may be nominal based on lumber industry standards.

Specification subject to change without notice.

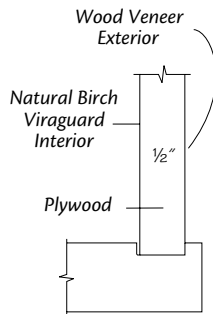

- PE --- Plywood Ends
- APC --- All Plywood Construction
- APFC --- All Plywood Furniture Construction
- DE --- Integrated Decorative End
- FPEB --- Furniture Plywood Ends
- GD --- Glass Doors
- ID --- Increased Depth
- IF --- Inverted Frame
- MI --- Matching Interior
- RD --- Reduced Depth
- RTK --- Recessed Toe Kick
- RTKP --- Recessed Toe Kick Peninsula
- TWR --- Top Wide Rail
- VTK --- Void Toe Kick
- WR --- Wide Bottom Rail
- XS --- Extended Stile
- XSG --- Integrated Extended Stile

Plywood Ends

(price book pg. C1)

- PE** Full Kitchens
- PEB** Individual Cabinets

- This construction option affects end panels only
- Available for full or partial kitchen orders
- 1/2" plywood end panels are available for most cabinets
- Consult the Plywood End option box (PE) for your desired cabinet
- End panels only are 1/2" plywood with wood veneer exterior and Natural Birch Viraguard interior
- Shelves, ceilings and floors are engineered wood with Viraguard
- To order a full kitchen with Plywood Ends, use PE in the header of your order
- To order individual line items with Plywood Ends, dash each line item with PEB; Example: W3030-PEB, WEP3•30L-PEB
- Unless noted, plain sawn end panels will be supplied for quartersawn door styles
- Plywood End Panels do **not** receive glaze detailing

All Plywood Construction with 1/2" End Panels

(price book pg. C1)

- APC** Full Kitchens
- This construction option affects the entire cabinet
- Available for full kitchen orders only
- An All Plywood Construction with 1/2" End Panels option is available for most cabinets
- Consult All Plywood Construction option box (APC) for your desired cabinet
- This All Plywood option features:
 - 1/2" plywood floors, ceilings, end panels, I-beams and toe kicks
 - 3/4" plywood base, wall and tall shelves
 - 3/8" plywood base back panel
 - 3/16" plywood wall back panel and drawer bottoms
 - Hanging rail may be plywood or solid wood

- Toe kick support blocks are **not** plywood
- To order individual line items with All Plywood Construction you must place those items on a separate order with APC in the header
- Unless noted, plain sawn end panels will be supplied for quartersawn door styles
- **Note:** To get All Plywood Construction with 3/4" (Furniture) Plywood Ends use APFC with APC
- Plywood End Panels do **not** receive glaze detailing

Matching Interior Standard Construction–Viraguard

(price book pg. C1)

MIV Individual Cabinets

- A Matching Interior option is recommended for all cabinets having glass doors
- Consult Matching Interior (MI) option box for availability for your desired cabinet
- If an item shows MI as standard in the option boxes, the matching interior material will be Viraguard unless that item's standard construction is All Plywood (APC), Wood Veneer or Furniture Plywood Ends (FPEB, APFC). This includes cabinets ordered as unfinished.
- Inside of face frame is unfinished
- This option includes:
 - 1/2" end panels with matching Viraguard exterior and interior
 - 3/4" matching Viraguard shelves on satin chrome furniture shelf rests
 - Matching Viraguard for ceilings and floors
- You must use MIP, MIFP or MIAPFC to get a wood veneer matching interior
- Unless noted, plain sawn end panels will be supplied for quartersawn door styles
- **Important Note:**
 - Natural Birch and Natural Maple door styles with standard end panels are supplied standard with a Natural Birch Viraguard interior. It is **not** necessary to order Matching Interior.

Wood Veneer Construction

- KraftMaid offers certain cabinets with Wood Veneer Construction standard. Depending on the item, this may consist of a solid hardwood, plywood or engineered wood core that has solid wood veneer on both sides and is finished to match.

Glass Door Inserts

GD

- For complete listing of glass door specifications, see Glass Insert section of this book
- Note:** Most doors (12" or wider and up to 54" high) can be supplied prepared for glass, with glass inserts, Mullion glass or Aluminum Frame doors

- **Annealed Glass**

Glass that has been cooled with precise control to relieve stress introduced by the manufacturing process. This annealing process makes the glass workable, i.e. easier to cut, machine, etc. Common household glass is annealed glass. It is **Not** safety glass.

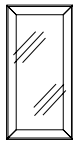

- **Laminated Safety Glass**

When broken, laminated safety glass is held together by the adhesives that are used in the manufacturing process. This generally helps keep large pieces of glass from falling from the opening. Nevertheless, small pieces and/or chips may still fall, and the precise size of pieces of glass that will break is difficult to identify and describe.

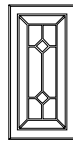

- **Tempered Glass**

Tempering uses either a thermal or chemical process to quickly harden the glass, which compresses its surface. Compressing the surface increases the amount of tensile stress that can be endured before breakage occurs. When it does break, tempered glass generally breaks into very small pieces.

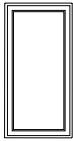

- **Not** available on cabinets with more than four doors

Specifications and Options

Increased Depth

(price book pg. C1)

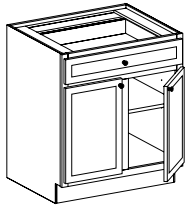

ID

- Many wall cabinets can be increased to a 24" depth, in 1/16" increments. Consult option availability chart for your desired cabinet.
- Any wall cabinet over 24" wide or 30" high with a depth greater than 12" and/or with butt doors must be installed between two (2) cabinets, a cabinet and a wall or supported from below
- Example: W2430R-ID increased depth to 16 1/4"
- Note:** Maximum cabinet width for this option is 36" and maximum cabinet height is 42"
- Maximum Increased Depth (ID) for peninsula wall cabinets is 15"

W3030-CFO

B30-CFO

U302484-CFO

VSB242134-CFO

Cabinet Front Only

(price book pg. C5)

CFO

- Front frame and appropriate doors and drawer heads only
- Toe kick attached where applicable except 96" tall
- Extended stiles available

We recommend using this option on cabinetry containing no factory installed accessories, since all cabinet components will be eliminated except face frame, doors and drawer fronts.

For example, order EZR36L-CFO instead of EZR36L.WSS-CFO or B18L-CFO instead of B18L.FWT-CF

Mullion Strip Base-Void Center Stile

(price book pg. C5)

MSB

- On double door cabinets (30" or wider) the center stile can be removed. When this is done, a mullion strip is attached to the left door. Example: B30-MSB.
- Solid wood
- **Note:** This option applies to base cabinets only

Mullion Strip Utility Bottom-Void Center Stile

(price book pg. C5)

MSUB

- On double door cabinets (30" or wider) the center stile can be removed from the lower section of a tall cabinet. When this is done, a mullion strip is attached to the left door.
- Solid wood
- If Inverted Frame (IF) option is chosen with this option, the larger section, now on top, will have the mullion strip
- **Note:** MSUB and MSUT **not** available on same cabinet
- Example: U302484-MSUB

Mullion Strip Utility Top-Void Center Stile

(price book pg. C5)

MSUT

- On double door cabinets (30" or wider) the center stile can be removed from the upper section of a tall cabinet. When this is done, a mullion strip is attached to the left door.
- Solid wood
- If Inverted Frame (IF) option is chosen with this option, the smaller section, now on bottom, will have the mullion strip
- **Note:** available on cabinets with standard Mullion Strip Base (MSB). Example: Multi-Storage Pantry (MSP), Utility Roll-out Tray (U-ROT).
- **Note:** MSUB and MSUT **not** available on same cabinet
- Example: U302484-MSUT

Standard Runner System

- This runner system features smooth, ball bearing operation with a 75 pound load capacity in a full extension runner that is fully concealed
- Integrated drawer buffer engages when the drawer is two inches from closing and applies resistance to the self-closing mechanism on the runner, giving a soft, controlled closing
- **Not** available on Roll-out Trays (ROT) or cabinets less than 18" deep
