

Camed Glass

Construction Options and Modifications

Camed glass designs use cut glass and zinc caming to create an artistic statement. The lines of the caming add stylish detail while creating visual interruptions in the glass and the objects displayed behind it.

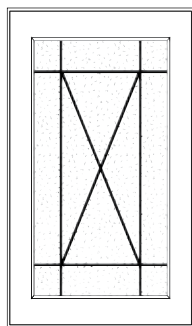

Camed glass is available in most door styles, in sizes from 12" wide and up to 42" high

Glass inserts are ordered individually. Place quantity before order code. See examples for individual items

Material dimensions may be nominal based on lumber industry standards.

Specifications subject to change without notice.

- Obscured clear Baroque field
- Beveled stars
- Zinc caming
- Consult configuration chart for number of stars
- **Not** available in arch door styles
- Example: W1842R-1GOT2

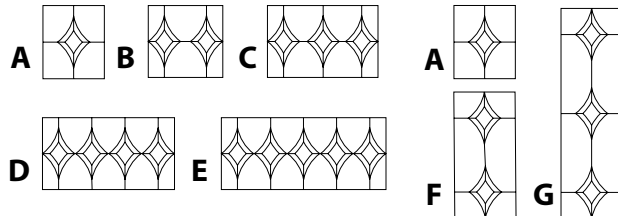

Gothic Configuration Chart

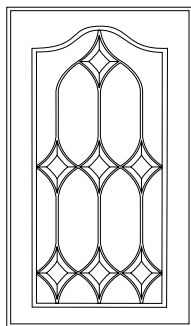

Consult both height and width charts to determine the number of horizontal and vertical stars based on the overlay of your selected door style. Stars will always touch outside edges when there is more than one row, or one column of stars.

Stiles' and rails' sizes are noted in door styles section of this book.

Cabinet Width	Partial Overlays	Full overlays with specific rail heights				
		½"	2 ⅜"	2 ¼"	2 ½"	2 ¾"
