

Mullion Glass

Construction Options and Modifications

Mullion glass designs combine the beauty of actual wood mullion divides and wood inserts or clear or textured tempered glass. The wood mullions coordinate with the door and frame in materials and finish. Antiquity, Bistro and Ravenna glass inserts offer a range of views into the cabinet interior, so items behind the glass can be fully exposed or slightly obscured.

Decorative molding will not be applied to Mullion Doors when ordered in door styles having applied molding on their inside profile

Mullion glass is available in most door styles, in sizes from 12" wide and up to 42" high

Glass inserts are ordered individually. Place quantity before order code. See examples for individual items

Material dimensions may be nominal based on lumber industry standards.

Specifications subject to change without notice.

Color coding indicates new product, size or code

- Example: W1830-1MD1; W1842-1MDATQ2
- Standard Mullion Profile: The outside profile of a Mullion door will match the profile of the selected door style. The inside profile and mullion profile will always be the same, as pictured.
- To determine the Mullion Door Lite configuration for your selected cabinet, refer to the chart
- Configuration G, J and K will be supplied with annealed glass vs. tempered glass
- Be sure your customer is aware of the mullion configuration when working with sizes requiring patterns A, D, G, J and K

Be sure your customer is aware of the mullion configuration when working with sizes requiring patterns A,D,G, J and K.

Remember, matching interior is **not** standard when attaching glass doors to a cabinet. We highly recommend upgrading to matching interior.
